Chapter 1 by xCringe

I woke up in a pitch black room. "What happened?" I thought to myself. All I remember was a flash of light, and then darkness.

As I stood up, a loud voice that belonged to a woman came on. "Welcome to The Labyrinth." The woman said, "As you know, when you hit the age of eighteen, you are to go into The Labyrinth. The Labyrinth is full of tests and obstacles. These will determine your future. You will also be monitored during this process. Look to your right, you will see a backpack. Inside contains some food, twenty water bottles, a pocket knife, a flashlight and a medical kit. These supplies won't last forever, so at some point, you will need to find your own supplies. You will have ninety days to find your way out. We will announce when one day is completed and inform how many days you have left. The test will begin in 5...4...3...2...1. Time has now begun, good luck."

As door began to open and light fled in. I grabbed the backpack and slung it over my back. I took a deep breath, and stepped into The Labyrinth.
